

SWEET

Liquid Nutrient for Horticultural and Field Crops

GENERAL INFORMATION

SWEET (0-0-0) is a liquid nutrient specially formulated to promote plant growth.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat or skin. Avoid contact with eyes, skin and clothing. In case of contact with skin or eyes, flush with plenty of water, for eyes get medical attention.

CLEANING OF SPRAYER

As a standard good farming practice, flush all parts of the sprayer with clean water including the pump, hoses and nozzles several times prior to and after the use of this product.

GUARANTEED ANALYSIS

Calcium (Ca)	6.7%
Magnesium (Mg)	0.6%
Boron (B)	0.1%

Derived from Calcium chloride, Magnesium chloride, Sodium octaborate

SHAKE WELL BEFORE USING

DIRECTIONS FOR MIXING

SWEET will readily disperse in water with little agitation. Any residue left in containers is water-soluble. Triple rinse containers and add contents to the spray tank. Do not reuse container. TANK MIXES: has shown to be compatible with most pesticides, fertilizers and other chemicals but a compatibility test is always advised as standard operating procedure. An adequate test for compatibility involves mixing in a small container the proper proportions of the intended tank mix products with the intended volume of water. Agitate and let stand for one hour. If a precipitate forms then apply the products separately. Any tank mixes should be discussed and/or approved with your local distributor prior to mixing and application.

WARNING:

This product contains boron (B) and may be harmful to certain crops. Use only according to manufacturer's directions
